EMERGENCY RESPONSE PLAN

Fire Emergency

I. INTRODUCTION: As a member of SLSA, you have a responsibility to be an integral part of the Fire Safety Program. This responsibility is one that should not be taken lightly. Additionally, it is our duty to protect fellow members and visitors from accidents and fires. The best form of protection is prevention. Safe working conditions and prior knowledge of what to do in an emergency can mean the difference between safety and serious injury, or even death. Prevention means that every member is charged with the responsibilities of:

- A. Knowing SLSA procedures for notification and activation of the Fire Plan, and
- B. Keeping activity areas neat and clean, and performing activities in a safe manner.

It shall be the responsibility of every Event Committee Chairman, Range Safety Officer on duty and Director to implement and follow these guidelines, including follow up reporting to club officials.

II. SLSA FIRE RESPONSE PLAN: In the event that a fire should occur at SLSA, remember the word **R-A-C-E-R** and what it stands for-IT COULD SAVE YOUR LIFE!

- **RESCUE:** In the event of a fire, rescue those persons that can be rescued safely, as well as yourself, by proceeding to an area out of the immediate location.
- **ALARM:** If you smell smoke, see fire, or see smoke, dial 911 and report the nature of the problem.
- **CONFINE:** Close all windows and doors in your area. This will confine or slow the spread of smoke and fire.
- **EXTINGUISH:** If you can do so safely, extinguish the fire if it is small, contained or not spreading beyond the immediate area. Fire extinguishers are located in the clubhouse and rifle range house. Learn their location in your work area. Remember, these fire extinguishers are only designed to put out a small fire. If the fire has spread beyond the area of origin, or it cannot be put out safely, then confine the area. If the alarm has been activated, help is on the way.

To operate a Fire Extinguisher, remember the word PASS:

- **PULL** the pin. Hold the extinguisher with the nozzle pointing away from you and release the locking mechanism.
- **AIM** low. Point the extinguisher at the base of the fire.
- **SQUEEZE** the lever slowly and evenly.
- **SWEEP** the nozzle from side to side.

For outdoor fires, shovels are available at the rifle range house and club storage building.

- **RELOCATE:** Relocate people to a safe area away from the fire.

III. MEMBER RESPONSIBILITIES IN THE EVENT OF A FIRE

A. Member Suspecting/Locating a Fire: That member who suspects or locates a fire has a duty to protect him/herself and others, as outlined above in the SLSA Fire Response Plan.

B. Member/Committee Chairman Responsibilities:

1. Follow the SLSA Fire Response Plan (R-A-C-E), as outlined above
2. Advise visitors/guests to stay in their location.
3. Should evacuation of an area become necessary, it will be the responsibility of member, committee chairman or RSO on duty in the area to account for visitors, prior to and after evacuation.
4. Once fire is contained or extinguished, report in complete detail to the Club President or a Director the details of the incident.

Medical Emergency

I. INTRODUCTION: As a member of SLSA, you have a responsibility to be an integral part of the Safety Program. This responsibility is one that should not be taken lightly. Additionally, it is our duty to protect fellow members and visitors from accidents and fires. The best form of protection is prevention. Safe working conditions and prior knowledge of what to do in an emergency can mean the difference between safety and serious injury, or even death. CHAPTER 6

RANGE OPERATIONS GUIDE

1. **General.** Live firing conducted at the SLSA Range Complex is designed to provide authorized personnel access to a facility where they can become proficient with privately-owned firearms. For purposes of this Chapter (6), the terms "Committee Chairman" and "Range Safety Officer" (RSO) mean the same thing.
2. **Facilities for Use.** Range availability is at the discretion of the Board of Directors. Live-fire shooting is normally limited to the following ranges and equipment:
 - a. Outdoor Ranges
 - 1.) Rifle Range-Rifles .50 caliber centerfire or smaller or .75 caliber using black powder. Shotguns using slugs. (No tracer or armor-piercing ammunition.)
 - 2.) Pistol Ranges- Pistols of any caliber or gauge. (No tracer or armor-piercing ammunition.)
 - 3.) Trap and Skeet Ranges--Shotguns using only shot size #6 or smaller; no slugs or 00 buck.
3. **Range Limitations and Safety Requirements.** Live-fire shooters will:
 - a. Fire only on scheduled ranges and have a Range Safety Officer (RSO) or Committee Chairman present. If no RSO is present, then each member must act as their own RSO.
 - b. Fire only authorized firearms and ammunition.
 - c. Fire at authorized targets only. Metal silhouette targets are to be used for silhouette matches only and not for recreational shooting. Computerized targets and target box systems are **off limits** to all shooters.
 - d. Fire only after completing a "hold harmless" agreement. (Required for each visit to the range complex.)
 - e. Ensure all projectiles impact within the established range safety limits.
 - f. Call "Cease firing" and make safe all firearms when a shooter moves forward of the firing line or during any unsafe condition.
 - g. Call "Cease firing" if a firing line becomes staggered (one shooter forward of another) anywhere on the range complex.
 - h. Use appropriate ear protection. The indoor range requires double hearing protection (foamy inserts and hard ears).
 - i. Wear appropriate eye protection.
 - j. Notify the RSO or a Board Director of any safety infractions.
 - k. Police all brass, paper, and other debris that accumulates on the range. Dispose of them in the containers provided.
4. **Authorized & Prohibited Firearms.** Fully automatic firearms are not authorized.
5. **Authorized Personnel.** The following persons are allowed to fire:
 - a. Current members of the shooting club.
 - b. Invited guests of the above, provided the authorized person is present and assumes full responsibility for the conduct of his or her guest(s).
 - c. Personnel approved by the club officers, Committee Chairman, or RSO on a case-by-case basis.

6. Personnel Responsibilities.

a. Shooting Club Committee Chairmen and RSO's. The Club President or Board of Directors must first approve anyone desiring to become a shooting club Committee Chairman or an RSO.

- (1.) Present shooting club identification card.
- (2.) Obtain any special instructions.
- (3.) Know location of First Aid Kit and Fire Extinguisher.
- (4.) Conduct range inspection using the appropriate checklist.
- (5.) Check that all shooters have current club cards, or that all shooters and spectators fill out "hold harmless" agreements.
- (6.) Conduct range safety briefing using Appendix (3).
- (7.) Conduct live fire in accordance with this chapter. Failure of shooters to abide by the procedures listed in this chapter will result in immediate eviction from the range and possible suspension of future shooting privileges. Report all incidents to the RSO.
- (8.) Turn in all gear.
- (9.) All Committee Chairmen must file their event reports with the Director who oversees the primary category of their event (Rifle & Pistol, Trap, Skeet or Junior Rifle). It will be the responsibility of the Director to present all committee reports to the Board.

d. Shooting Club Members

- (1.) All shooters must check in with the designated RSO on the scheduled range.
- (2.) All shooters and spectators must fill out "hold harmless" agreements.
- (3.) Shooters will conduct themselves in an orderly manner at all times and will be responsible for the conduct of any guests they bring.
- (4.) All shooters are responsible for their guns and ammunition while on the complex.
- (5.) Firearms that are out of the case and not being fired must be on the rack or benched. (Actions open and facing up, chambers empty, muzzles pointing downrange, and safeties on.)
- (6.) Only load firearms on the firing line after the RSO has given the command to load.
- (7.) Do not point firearms at anything other than authorized targets.
- (8.) Fire at your own target only.
- (9.) Give the command "Cease firing" if an unsafe condition exists.
- (10.) Follow all instructions from the RSO.
- (11.) Assist in policing the area of brass and any other debris.
- (12.) No pets are allowed on the ranges.

7. Hours of Operation and Scheduling. The Club develops a special event live-fire schedule based on requests received and posts it on January 1. Updated schedules will be posted the first of each month. All other range requests will be approved based on range availability. RSOs desiring to open a range must notify the shooting club in order to be placed on the operations schedule. Information on range availability and scheduling is accessible 24 hours a day on the internet at www.santaluciasportsmen.org. During Board sanctioned events, at the option of the event coordinator, shooting may start at 8 a.m., but no earlier.

8. Alcoholic Beverages and Drugs. Shooters may not consume alcoholic beverages or drugs (including prescription and over-the-counter medications) before or during live firing. The RSO will deny range access to anyone in violation. After firing, shooters may consume alcoholic beverages in the following areas:

- a. The clubhouse adjacent to the shotgun range.
- b. Those deemed to be "under the influence" will be required to leave the range.

9. Medical Support. In the event of a medical emergency, call 911 and notify the RSO immediately.

APPENDIX 3:

Range Safety Briefing

Follow this outline when conducting range safety briefings. **Conduct** the briefing on the range immediately prior to range use. **Stand** where posted rules, demonstrations, and explanations of range equipment can be included in the briefing. **Involve** range users. Have them read rules from signs. Ask questions to reinforce understanding. If firearms are used during the briefing, *the RSO must follow the NRA gun safety rules.*

1. PURPOSE OF THE SHOOTING EVENT

- **State** the purpose, e.g., recreational shooting.
- **Provide** an overview of the event.
- **State** the total numbers of rounds and time available.

Range Personnel

- **State** where range personnel will be located.
- **Introduce** range personnel.
- **Explain** that their role is to ensure safety.
- **Indicate** how they may be identified, e.g., orange vest and hat.

2. RANGE LAYOUT AND LIMITS

- **Conduct** a range orientation on, or within view of, the range.
- **Point out** key areas of the range and briefly describe actions that occur within each.
 - Spectator area--Located behind the ready line where visitors and range users may wait and observe activities.
 - Ready area--Located behind the firing line where shooters may store and prepare their equipment.
 - Firing point--Shooters may occupy their firing points at the firing line when authorized to do so. Points are numbered and correspond to the target numbers. Shooters may only dry fire at the firing line before an event and should only handle firearms when authorized to do so.
 - Backstop--Located downrange behind the target line. Firearms should point toward the backstop at all times. All firing should be directed forward from the shooters' firing points so projectiles impact within designated impact areas.
 - Cleaning area-- Cleaning is authorized only in the cleaning area. No ammunition is allowed in the cleaning area.
- **Demonstrate** the proper use of special equipment and **explain** any special safety practices, e.g., body and hand positions for target carriers, trap machines, etc.

3. RANGE SAFETY RULES

❖ NRA Gun Safety Rules

Three Fundamental NRA Rules for Safe Gun Handling

Ask: What is the first rule of safe gun handling?

- *Always* keep the gun pointed in a safe direction.

Ask: What does a "safe direction" mean?

- The gun is pointed so that even if it were to go off, it would not cause injury.

Ask: What is the second rule of safe gun handling?

- *Always* keep your finger off the trigger until ready to shoot.

Ask: Unless shooting, where should the shooter's finger(s) rest?

- The finger(s) should rest alongside the gun, i.e., on the frame, receiver, or trigger guard.
- Ask:** What is the third rule of safe gun handling?
- *Always* keep the gun unloaded until ready to use.

(Emphasize that safeties can fail. Safe gun handling rules should be followed all the time!)

Rules for Safe Use

- ◆ Know your target and what is beyond.
 - Ask:** What is meant by “know your target and what is beyond?”
 - The shooter must be sure that projectiles will safely impact into the backstop.
- ◆ Be sure the gun is safe to operate.
- ◆ Know how to use the gun safely.
 - Ask:** What is meant by “know how to use the gun safely?”
 - Shooters need to know how the gun operates, its basic parts, how to safely open and close the action, and how to remove ammunition.
- ◆ Use only the correct ammunition for your gun.
 - Ask:** What is meant by “use only the correct ammunition?”
 - Only ammunition designed for a particular gun can be safely fired in that gun. Shooters should ensure that the caliber marked on the barrel, ammo box, and cartridge case match. This is especially true for antique firearms.
- ◆ Wear eye and ear protection as appropriate.
 - Ask:** Why should range users wear both eye and ear protection?
 - Guns are loud and the noise can cause hearing damage. Guns can also emit debris, hot gas, and cartridge cases that could cause eye injuries.
 - Users of air gun ranges, including spectators, need eye protection to prevent injuries from ricochets.
- ◆ Never use alcohol or drugs before or while shooting.
 - Ask:** What type of substance is implied by “never use alcohol or drugs...?”
 - Any substance that may impair normal mental or physical bodily functions. Examples include prescription and non-prescription drugs, e.g., cold medicines that may cause drowsiness, nervousness, balance problems, etc.
 - Anyone taking any medication or substance that may impair normal mental or physical bodily functions is not allowed on the range.

❖ **General Range Safety Rules**

Ask range users to read rules as you (RSO) point to range posters or refer to handouts.

- ◆ Know and obey all range commands.
- ◆ Know where others are at all times.
- ◆ Shoot only at authorized targets.
- ◆ Do not handle a firearm or stand at the firing line where firearms are present while others are downrange.

◆ Stop shooting immediately upon the command of “**Cease Firing.**”

Ask: Why is it important to shoot only at authorized targets?

- Shooting at different targets, e.g., steel targets, at different distances or angles may result in hazardous conditions.

Ask: What actions should shooters perform during a cease fire?

- Stop shooting immediately.
- Await further instructions from the RSO.

◆ Stoppages

Explain that there are three common ammunition stoppages.

- A **misfire** is when a cartridge does not fire after the primer has been struck by the firing pin.
- A **hangfire** is when a perceptible delay in the ignition of the cartridge after the primer has been struck by the firing pin.
 - The normal procedure for handling misfires or hangfires is to:
 - Keep the gun pointed down range (safe direction).
 - Wait at least 30 seconds in case it is a hangfire. With a blackpower firearm, wait at least two minutes.
- A **squib load** is when there is less than normal pressure or bullet velocity after ignition of the cartridge. The bullet may or may not exit the barrel. Squib loads are identified by difference in recoil or noise. The normal procedure for handling squib loads is:
 - Keep the gun pointed down range (safe direction).
 - Unload the gun--make sure the chamber is empty.
 - Insert a cleaning rod down the barrel from the chamber end (if possible) to make sure the bullet is not lodged in the barrel.

❖ **NRA Hygiene Guidelines**

Explain that NRA hygiene guidelines are intended to minimize exposure to airborne particulate lead and cleaning product residues.

Emphasize that everybody exposed at the range or cleaning area--even if he did not participate in the shooting session--should follow these guidelines. **Remind** range users of these guidelines prior to, during, and immediately after occupying the range.

- Refrain from eating, drinking, smoking, applying makeup, or otherwise placing hands in proximity to the mouth or nose while on the range or cleaning a gun.
- Wash your hands and face with cold water after leaving the range or cleaning area before eating, or drinking.
- Change and wash clothing after a shooting or gun cleaning session to minimize exposure to airborne particulate lead or solvent and cleaning product residues.

❖ Site-Specific Range Rules

Ask range users to read rules as you (RSO) point to range posters or refer to handouts.

- ◆ Armor-piercing, tracers ammunition is not allowed.
- ◆ Targets must be placed at the shooter's eye level to ensure bullets hit the impact area.
- ◆ Leave dropped ammunition on the floor or ground until the stage of fire is completed and firearms are benched or grounded.
- ◆ Notify the RSO when there is a firearm stoppage malfunction.
- ◆ Dry firing is only permitted at the firing line and only when authorized.
- ◆ All firearms must remain unloaded with actions open except when on the firing line and authorized to be loaded.
- ◆ When firearms are benched or grounded, keep the actions open and ejection ports facing upward so chambers are visible.
- ◆ Ammunition is not permitted in the cleaning area.
 - Ask: Why are shooters required to leave dropped ammunition on the floor until firing is completed and firearms are benched or grounded?
 - This policy prevents shooters from unintentionally pointing the firearm at other users while retrieving dropped ammunition, or inadvertently moving in front of the firing line.
 - Ask: Why are shooters required to notify the RSO of firearm stoppage or malfunctions?
 - Notification is critical for safety at the end of the course of fire.

❖ Administrative Range Rules

Example: Did everyone park his vehicle in the shooters' parking area?

4. FIRING LINE COMMANDS

State and explain standard range commands that will be used for specific shooting event(s), e.g., formal competition rules are specified in NRA Rule Books.

- ◆ "As you were" means to disregard the command just given.
- ◆ "Carry on" means to proceed with what was being done before an interruption.
- ◆ "Relay No. __, Match No. ___ (or naming the match), on the firing line" means shooters are to move to their firing points.
- ◆ "The preparation period starts now" means shooters may occupy their firing points, prepare, and dry fire at the targets.
- ◆ "The preparation period has ended" means shooters must stop preparation activities.
- ◆ "Load" means shooters are given permission to load authorized number of rounds and prepare for the shooting event.
- ◆ "Is the line ready?" allows a shooter with problems to raise an arm and call "Not ready on target..."
- ◆ "The line is ready" means all shooters are ready to begin.
- ◆ "Ready on the right!" ; "Ready on the left!" ; "Ready on the firing line!" is the sequence of commands that gives shooters their last chance to signal "Not ready." "Ready on the firing line!" means that targets will be exposed in three to five seconds.
- ◆ "Commence firing!" signals shooters to begin shooting. This command may be signaled verbally, by a whistle or horn blast, or by moving the targets into view.

- ◆ “Misfire” is called by a muzzleloading shooter to inform the RSO and other shooters that a firearm failed to fire and a hazardous condition may exist. Due to the possibility of a hangfire (a delay in the ignition of the cartridge), keep the firearm pointed downrange and wait at least 30 seconds for modern firearms, or at least two minutes for muzzleloading firearms, prior to correcting the malfunction.
- ◆ “Cease firing!” notifies shooters to stop firing immediately and await further instructions. “Cease firing” may be signaled verbally, by a whistle or horn blast, or by moving the targets out of view. Additional commands may follow. **Emphasize** that this command can be given by anyone observing an unsafe condition, e.g., if a person is downrange.
- ◆ “Is the line clear on the right?” ; “Is the line clear on the left?” means line officers or the RSO check that all firearms are unloaded with actions open and chambers empty.
- ◆ “Go forward, score targets, and paste” (or “Change”) authorizes shooters to go forward of the firing line to change targets.
- ◆ “Range is clear, you may handle your guns” means shooters may approach the firing line and handle their firearms since no personnel are downrange.
- ◆ “Move out of position and remove your equipment from the firing line” authorizes shooters to remove their gear.
- ◆ “Police your firing point” means shooters are to pick up fired cartridge cases and clean their firing points.
 - Ask:** What two range commands may be issued by shooters?
 - “Cease firing” and “Misfire.”
 - Ask:** What does “misfire” mean?
 - That the muzzleloading firearm failed to fire and a hazardous condition may exist. The misfire could actually be a hangfire, which is a delay in the ignition of the cartridge.
 - Ask:** What actions are taken during a misfire?
 - Due to the possibility of a hangfire, the shooter keeps the firearm pointed downrange and waits at least 30 seconds for modern firearms, or at least two minutes for muzzleloading firearms, prior to correcting the malfunction.
 - Ask:** Where and when may shooters dry fire?
 - Only at their firing points and only when authorized to do so.

5. **EMERGENCY PROCEDURES**

- Take charge of the situation. (Determine seriousness of injury and assigned duties)
- Render aid. First-aid kit should be centrally located.
- Call for help via radio or telephone. Emergency phone numbers and information list should be centrally located.
- Direct help to location.
- Take notes. Emergency report sheet should be located in range SOPs binder (See Appendix 5.)
